Oswald-copy-filed

Oswald/Mexico- was the CIA covering something up? 5/7/83

In 105-82555-2025 (FBI 105-3703-106), FBIHQ coded cable to Mexico City Legat, it asks, with some vigor, when the CIA first told the FBI that Oswald had been to the SU Cuban Embassy. FBIHQ wants response "immediately." (6/3/64)

FBIHQ had no record that before the assassination the CIA provided any indication that HO was at the Cuban Embassy.

1-0-82555-127 (FBI 105-3703-11)SC airtel to FBIHQ of 11/22/63 refers to its earlier cable of 10/18/63 and quotes CIA as having told the FBI in No only that Oswald was "in contact Soviet Embassy, Mexico City, 9/28/63 and10/1/63."

(Both of these records disclose the kind of information the CIA swears it must withhold, where there is a CIA station. So do other of these records I'll list separately.)

If the CIA did not inform the FBI before the assassination that Oswald was at the Cuban Embassy, one of the most obvious suspicions is that it was trying to hide the fact that it had an informer inside the Cuban Embassy.

(I have no firm recollection of what the disclosed records reflect the CIA did say beginning with the assassination about HO at the Cuban Embassy.)
